

SCHOLAR COVID-19 Response Steps: Close Contact Case

Has your scholar been exposed to someone with COVID-19?

Yes

Then...

Continue to school. Wearing a mask around others for 10 days is **STRONGLY** recommended.

Get tested on day 6 even if you don't develop symptoms. Day 1 is the first full day after exposure.

If your scholar develops symptoms, isolate immediately and stay home until you know the test result.
Email covidresponse@rhodesschool.org your scholar's name, grade, teacher, and whether or not your scholar is well enough to complete work from home.*

**Your Campus Counselor will give you instructions for Remote Conferencing via email.*
